

KLOVE is extremely important to me as a listener - it provides me the uplifting I need every day. My children listen to it vs all the "world" music. I know when I turn KLOVE on I won't hear foul language or anything else. We need more stations like KLOVE in our community. Why can't I have a choice if I want to listen to spiritual music instead of being forced to listen to something replacing my station. The public needs to hear more uplifting music - it's not depressing and you just never know when something on the station will touch your heart. To have my station removed would be very disheartening to me and my family and others in this community. KLOVE has a positive, encouraging uplifting impact on communities across this country. Thank you and if you have never listened to KLOVE give it a try. God Bless you.
